

# H30

Designer radiator with digital thermostat

Glamox® | Heating

## Description

The H30 skirting radiator is suitable for all types of interiors and guarantees comfortable heating. With its cutting-edge design and smooth surfaces, it gives comfortable heat and becomes part of the interior in any room. Considerable focus was put on user-friendliness, with simple adjustment. Easy-to-read figures show temperature and options for programming. Protected against overheating and has temperature protection with automatic reconnection.

## Energy and environment in focus

The H30 skirting radiator fulfills the requirements of the EU Ecodesign Directive.

It comes with an integrated digital thermostat able to automatically reduce the temperature at night and during the day. That can mean up to a 20% reduction in energy consumption for heating.

600 to 1200 watt versions available.

The H30 has open window detection, and switches automatically between "anti-freeze" mode and normal when the window is closed again.

Easy to install, and comes with a separate wall bracket. Connected to power supply with the cable and plug supplied.

## Technical Description

### Materials and paint:

Painted surface in white RAL 9016.

Easy to loosen at the top for ease of cleaning.

Max. 90°C on surface.

### Connection:

Supplied with cable and plug.

### Thermostat:

Digital, electronic thermostat with built-in programs.

Temperature selected is shown in easy-to-read white figures.

### Installation:

Supplied with wall bracket.

Floor stand and connection box can be ordered separately.
