

3001

TPVD60 with low surface temperature

Glamox® | Heating

Description

The 3001 TPVD60 is suitable for use in schools and kindergartens. Available in 400W, 600W and 800W versions. Features a functional design that radiates heat quickly out into the room.

Minimum dust burning

Minimal dust burning due to the large surface cooling of the element. It has no sharp edges and has a smooth, durable surface. Protected against overheating. Cover over thermostat prevents accidental change of temperature (optional extra).

Easy-clean surface

Can be easily detached from the wall bracket at the top and tipped forward to make cleaning easier.

Technical Description

Materials and paint:

Painted surface in white RAL 9010.

Max. 60°C on surface.

Overheating protection with automatic reconnection.

Can be easily detached from the wall bracket at the top edge and tipped forward to make cleaning easier.

Connection:

Supplied with cable and plug which can either be connected to the connection box supplied for fixed installation, or plugged straight into a socket.

Thermostat:

Suitable for "plug-in" thermostats which can be ordered separately.

Installation:

Supplied with wall bracket with connection box fitted for fixed installation. Connection box can be moved sideways.

Dimensions TPVD60
